Overview

An exciting opportunity has arisen in our maintenance department for an **Electrical Maintenance Technician** to join our well-established engineering organisation, based in our head office in Kendal, Cumbria.

Reporting to the Facilities Manager, the Electrical Maintenance Technician is responsible for working pro-actively, using preventative maintenance techniques in order to maintain the smooth running of operations.

Responsibilities

- Conduct regular inspections of electrical systems and equipment
- Respond to technical issues affecting production and maintains electrical services through planned preventative maintenance
- Identify and diagnose electrical problems through systematic troubleshooting
- Respond to breakdowns and identify root problem to provide a solution with minimal downtime to production
- Proactively identify and escalate any activity that has the potential to cause harm or damage
- Replace faulty electrical parts such as switches, fuses and circuit breakers
- Maintain detailed records of electrical maintenance activities
- Adhere to health and safety protocols at all times
- Ensure that all electrical installations meet safety standards
- Facilities maintenance

The Role

This role plays a key part in maintaining smooth operations across the business. The role has the following key elements:

- **Troubleshooting** – able to identify, diagnose and solve electrical issues using troubleshooting
- **Safety Awareness** – good understanding of electrical safety regulations and best practice
- **Communication** – effective communication during critical situations when reporting maintenance needs

The individual

- HNC in Electrical field or equivalent years experience
- Wiring regulations qualification (desired)
- Full appreciation for the regulations for electrical work
- Proven experience as an electrical maintenance technician or similar role
- Familiarity with electrical codes and regulations
- Experience in a similar manufacturing environment
- Good IT skills
- Good Health, Safety and Environmental knowledge
- Effective communication and team work
- Able to lift, carry and move equipment

Where a candidate has the required aptitude for the role, training will be given.

Closing date: 11th May 2024. We reserve the right to close this vacancy early if we receive sufficient applications for the role.

To apply: Please send your CV to the Gilkes HR Department at recruitment@gilkes.com

Background

Gilkes delivers innovative, single source solutions to the Small Hydropower & High Horsepower Engine markets.

Working meticulously with our customers to ensure the very best in product design, total cost of ownership & operational excellence, our range of hydropower turbines and engine cooling pumps deliver solutions to meet the most demanding of technical specifications and environments.

With international credentials earned in over 85 countries, a Royal Warrant and over 165 years of design and manufacturing experience behind us, we are small enough to be agile and responsive, whilst large enough to have the technical and engineering competence needed to be one of the world's leading brands.

Headquartered in Kendal in the English lake district, Gilkes is an independently owned business with circa 160 employees across the world.

We have manufacturing sites in Kendal and Houston, Texas as well as a sales office in Tokyo, Japan.

Our Purpose

Our values-based approach has been shaped from a 165 year heritage as a family-owned business. We believe in developing ethical business relationships with a positive environmental focus that bring about long-term sustainable success. Our people are committed to ensuring that Gilkes' products make a meaningful difference & provide a platform for the transition to a low carbon economy.

People & Culture

We strongly believe that our people are the ultimate differentiator & are at the heart of everything we do. It is their passion, creativity, hard work & dedication that enables Gilkes to grow & prosper.

Gilkes invests in its people & in developing a positive organisational culture.

Our four key values are:

- Teamwork
- Integrity
- Excellence
- Commitment

Current Position & Context

Gilkes is moving fast to adapt to an ever changing economic environment, ensuring we continue to be relevant in our chosen markets.

The organisation recently carried out a strategic review & adjusted its cost base in response to the pandemic.

Pumps is seeing growth & we have had huge interest in our new small marine pump from all of the big players including Caterpillar, Volvo, Scania & John Deere.

The small Hydro market is trending towards energy recovery & we are well placed to fully exploit this with our current product portfolio.

The Hydro aftermarket, especially in the UK, offers real growth prospects for Gilkes and we are aligning Service, Modernisation and Electrical to take full advantage of these opportunities.
