### Overview

An exciting opportunity has arisen in the renewable energy sector for an Electrical or Control and Instrumentation Engineer to join our well-established engineering organisation, based in our head office in Kendal, Cumbria. Gilkes has a long engineering history in hydro engineering, during this time circa 6700 turbines have been installed worldwide with many still operational.

### Responsibilities

- Design of control systems for new and refurbished hydro schemes
- Installation support
- Factory Acceptance Testing of new equipment
- Commissioning on site both in the UK and overseas as part of our commissioning team

### Person Specification

Gilkes is looking for an organised and reliable team player who can bring energy, commitment and positivity to a well-established team.

With a solid work ethic and a can-do attitude, diligence and reliability will be essential in providing support.

### Expectations

- Pro-actively contribute to the smooth running of the Engineering department
- Represent Gilkes positively & appropriately
- Uphold the company's code of conduct
- Do not engage in any activity which could be detrimental to Gilkes

### Experience/personal skills

- HNC / HND / Degree preferred
- On the job training to be provided
- Experience in a similar working environment
- Excellent attention to detail

**To Apply:** Please send your CV and Covering letter to [recruitment@gilkes.com](mailto:recruitment@gilkes.com)

## Background

Gilkes delivers innovative, single source solutions to the Small Hydropower & High Horsepower Engine markets.

Working meticulously with our customers to ensure the very best in product design, total cost of ownership & operational excellence, our range of hydropower turbines and engine cooling pumps deliver solutions to meet the most demanding of technical specifications and environments.

With international credentials earned in over 85 countries, a Royal Warrant and over 165 years of design and manufacturing experience behind us, we are small enough to be agile and responsive, whilst large enough to have the technical and engineering competence needed to be one of the world's leading brands.

Headquartered in Kendal in the English lake district, Gilkes is an independently owned business with circa 160 employees across the world.

We have manufacturing sites in Kendal and Houston, Texas as well as a sales office in Tokyo, Japan.

## Our Purpose

Our values-based approach has been shaped from a 165 year heritage as a family-owned business. We believe in developing ethical business relationships with a positive environmental focus that bring about long-term sustainable success. Our people are committed to ensuring that Gilkes' products make a meaningful difference & provide a platform for the transition to a low carbon economy.

## People & Culture

We strongly believe that our people are the ultimate differentiator & are at the heart of everything we do. It is their passion, creativity, hard work & dedication that enables Gilkes to grow & prosper.

Gilkes invests in its people & in developing a positive organisational culture.

Our four key values are:

- Teamwork
- Integrity
- Excellence
- Commitment

## Current Position & Context

Gilkes is moving fast to adapt to an ever changing economic environment, ensuring we continue to be relevant in our chosen markets.

The organisation recently carried out a strategic review & adjusted its cost base in response to the pandemic.

Pumps is seeing growth & we have had huge interest in our new small marine pump from all of the big players including Caterpillar, Volvo, Scania & John Deere.

The small Hydro market is trending towards energy recovery & we are well placed to fully exploit this with our current product portfolio.

The Hydro aftermarket, especially in the UK, offers real growth prospects for Gilkes and we are aligning Service, Modernisation and Electrical to take full advantage of these opportunities.

## Our Business Model & Strategy

<p><b>What we do...</b></p> <p>We leverage opportunities through our expertise, dedication &amp; agility</p>	<p><b>Client Acquisition &amp; Development</b></p> <ul style="list-style-type: none"> <li>• Our customer-facing teams build &amp; maintain a dialogue with clients based on openness &amp; transparency</li> <li>• We build &amp; maintain our customer relationships based on ethical behaviour</li> </ul>	<p><b>Project Delivery</b></p> <ul style="list-style-type: none"> <li>• Our aim is to deliver projects 100% on-time-in-full</li> <li>• A formal process exists to ensure the most efficient use of resources &amp; competencies</li> </ul>	<p><b>Product Life Cycle Management</b></p> <ul style="list-style-type: none"> <li>• We actively manage &amp; support our products as they transition through their life cycle from New &gt;&gt; Spares &gt;&gt; Service &gt;&gt; Refurbishment</li> </ul>
